

Lucynt mobile makes it easy  
to take therapeutic-fun to  
multiple locations.

**The robust, electrically powered stand is specifically designed to take the Lucynt capsule places that our ceiling-mounted version simply can't go. Making it perfect to reach those who are dealing with limited mobility.**

Adjustable up to a height of 78"(1981mm) for exceptional table, floor, and wall projections.

Includes a hand-held remote to attain any height at the touch of a button.

The 55lb(25kg) stand is stable and surprisingly nimble, gliding easily with push of a finger, yet locking firmly in place at a touch.

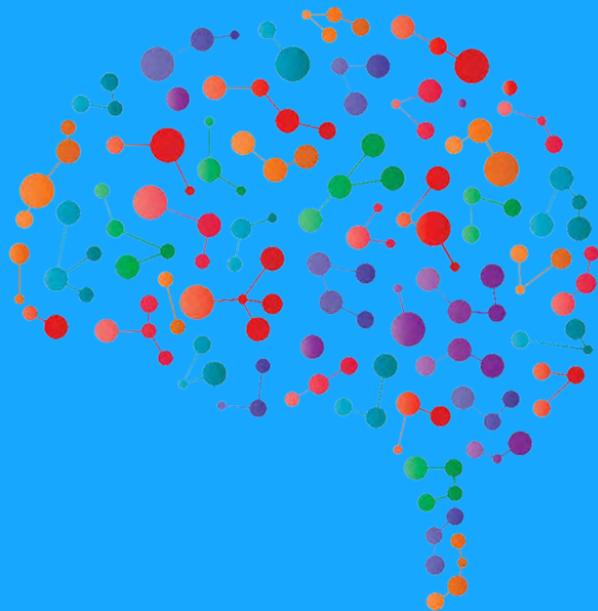

Heavy-duty construction makes for long-lasting reliability and easy handling.

Passes UL Certification with 3-times loading testing, and the sturdy 31"(787mm) base, keeps it sturdy in all environments.

Features smooth, lockable caster wheels for safe and easy maneuvering.

Keeping minds active, with a touch of fun.
