

SmartGoggles

2nd Generation

Massage, Vibration
+ Heat Therapy.
Personalized Relaxation.
Total Comfort.

The redesigned SmartGoggles deliver a science-backed combination of compression massage, heat and vibration therapies to enhance relaxation, reduce stress, relieve tension headaches, ease eye strain and improve your sleep - in just 15 minutes or less! Now lighter, quieter and with a 100% black-out design, the SmartGoggles are more comfortable than ever and create a perfect environment for relaxation, no matter where you are. Plus, the innovative SmartRelax treatment uses a proprietary biometric sensor to create personalized vibration patterns based on your heart rate, to further promote relaxation and help lower your heart rate.

Science-Backed Benefits

- Enhance relaxation
- Reduce stress
- Soothe headaches & eye strain
- Sleep better
