S- and L-Track

S and L TRACK SYSTEM

While the **L-Track** extends high performance coverage from your neck and shoulders all the way down to your glutes and thighs, the **S-Track** closely follows the curvature of the spine. The result is a massage that is designed to move with the natural curves of your body for optimal results.

FULL-BODY STRETCH

Our expansive “bend and stretch” functionality provides unprecedented leg and spine relief, increasing blood flow to the vertebrae and discs and rejuvenating the lower back, allowing you to recover with greater efficiency.
