

## Falls Happen. But Getting Up Shouldn't Be a Struggle.

Every year, millions of people—especially seniors or those with mobility challenges—experience falls that leave them stranded, scared, and dependent on others for help. But what if getting up after a fall didn't require fear, frustration, or calling 911?

### Meet the FloorRiser Premium™

A revolutionary lift assist device designed to safely and independently raise a person from a lying position—no strength or external support needed. Ideal for aging-in-place individuals at high risk of falls, caregivers, and home health professionals.

#### Freedom from Emergency Calls

Regain control. Say goodbye to waiting for emergency services or relying on multiple others.

#### Roll-and-Go Convenience

Easy to store, as the product conveniently rolls into a custom suitcase for effortless transport.

#### Back-Support Design

Supports the back while inflating—keeping the user upright, balanced, and comfortable throughout the process.

#### Effortless Operation

Just roll, position, and inflate. One push of a button lifts the user into a stable seated position.

#### Stability You Can Trust

Engineered with safety in mind.
