**Intelect® digital TENS**
- Battery-operated, portable dual channel digital TENS stimulation unit
- Adjustable frequency and pulse duration and timer; 5 modes: burst, normal, modulated rate, width strength duration and B-Pulse; easy-to-read LCD display with convenient digital controls

**Intelect® economy TENS**
- Dual channel with adjustable parameters including frequency, pulse duration and 3 modulation modes and timer
- Includes 9V battery, Dura-Stick II self-adhesive electrodes and carrying case

**Intelect® standard TENS**
- Dual channel modified square waveform with adjustable amplitude (0-80mA), pulse frequency (2-150 Hz) and pulse width (60-25 μS) with timer
- Includes 9V battery, Dura-Stick II self-adhesive electrodes and carrying case

**Intelect® IFC interferential**
- Battery-operated dual channel IFC stim
- For 2 or 4 electrode use; adjustable pulse amplitude, interference frequency and difference frequency parameters; 4 stim modes: continuous, 1/1, 8/8, and 10/10 ramped; 120V AC adapter

**Intelect® NMES**
- Dual channel, battery operated portable NMES stimulation unit
- Includes adjustable pulse amplitude, pulse frequency and contraction/relaxation time parameters

**Mettler® TENS**
- 2 independently controlled channels deliver burst or modulated Symmetric Bi-Phasic square pulse wave output

**Portable galvanic stimulator**
- One-handed operation: current adjustment, active probe positioning and on-off control
- EMS-1C produces “Interrupted DC” (galvanic) stimulation
- EMS-2C produces “Interrupted DC and Pulsed” (faradic) stimulation
- Includes a 9V battery

**Mini wireless TENS/EMS**
- Single channel output, 3V CR2025 battery (included), output 0–90 mA
- Timer: 30 min. backward to auto shut off
- Dual phase square wave
- LCD display with timer/mode/density
- Modes: 5 TENS programs; 5 EMS fitness programs; contraction (on time) 2-4 sec; relaxation (off time) 2-4 sec

**Chattanooga® Primera**
- Extensive range of programs – 8 TENS and 6 NMES programs
- TENS/NMES with HAN Waveform. Low (2Hz) and high (15 or 70Hz) frequencies are sequenced to better manage pain
- Complete package includes: unit, carrying case, battery, lead wires, Dura-Stick electrodes, back support belt and user’s manual
