- securely fasten to the backside of devices to facilitate test

push-pull handles

- fits Baseline® hydraulic and electric push-pull and Baseline® wrist dynamometer (dual grip only)
- use anchor handle to do pull testing
- easy to affix and remove
- securely fasten to the backside of devices to facilitate test
- includes 4 pull cuffs (ankle, thigh, wrist, head)
- two 5' chains
- pointer remains at maximum until reset
- reads lb and kg

12-0410 adult 660 lb (300 kg) 550.00
12-0411 adolescent 330 lb (150 kg) 550.00
12-0412 child 165 lb (75 kg) 550.00

pull cuffs

- securely fasten measurement accessory to subject near muscle group being evaluated
- connect dynamometer to measurement accessory
- cuff with padded foam

12-0420 ankle 15.00
12-0422 thigh 17.50
12-0428 wrist 12.50
12-0427 shoulder harness 30.00
12-0429 head harness 25.00

Baseline® cable tensiometer

- secure one cable to a stationary object; the other to the body part using a measurement accessory (see pull cuffs above)
- includes 4 pull cuffs (ankle, thigh, wrist, head) and two 5' chains
- pointer remains at maximum until reset
- reads lb and kg

12-0415 single grip 100.00
12-0416 hardware 30.00

Baseline® push-pull handles

- measures strength of major muscle groups
- secure one cable to a stationary object; the other to the body part using a measurement accessory (see pull cuffs above)
- includes 4 pull cuffs (ankle, thigh, wrist, head) and two 5' chains
- pointer remains at maximum until reset
- reads lb and kg

12-0410 adult 660 lb (300 kg) 525.00
12-0411 adolescent 330 lb (150 kg) 525.00
12-0412 child 165 lb (75 kg) 525.00
